## SEVEN MORE MORTAR BOMBS LOCATED IN VERNON DISTRICT

VERNON (Staff) — Seven more mortar bombs were found in Vernon and District Wednesday following an intensive search by army engineers for high explosives triggered when a mortar bomb killed two Vernon Scouts Saturday.

The bombs found Wednesday were three two-inch mortar and one three-inch mortar high explosive, as well as three three-inch smoke mortar bombs. They will be stacked and detonated by demolition experts today.

This brings to 13 the total number of smoke and high explosive bombs found in areas used by the army during the Second World War for manoeuvres and commando training.

A total of five explosive bombs were also found in the Victoria area, in a search resulting from the Vernon fatalities. (See story on page 6).

## Personal Acclaim For JFK On Result Of San Jose Talks

WASHINGTON (AP) — President Kennedy reports tonight on the Costa Rica conference that produced agreement to signed economic development in Central America and curb subversive activities based in Cuba.

Shortly before Kennedy left San Jose late Wednesday he announced he would open a 6 p.m. EST Washington press conference with a statement on his Monday-through-Wednesday talks with the presidents of Panama and the five Central American republics.

The meetings brought personal acclaim to Kennedy and agreement on a detailed statement of policy to guide the United States in its dealings with Panama, Costa Rica, El Salvador, Guatemala, Nicaragua and Honduras.

Before leaving San Jose, Kennedy told a cheering crowd of university students that Cuba is an example of communism's failure to provide for its people. Contrasting the progress of Costa Rica with that of the Communist-controlled Caribbean island, Kennedy said Cuba now produces 25 per cent less food than it did five years ago.

The presidents at the Costa Rica conference in a "Declaration of Central America" agreed to speed up their fledgling common market which would tie in later with a Latin American free trade area.

The presidents said they will seek the co-operation of other countries. An authoritative source said they mean Mexico, through which much of the travel between Cuba and Central America has been passing.

LANDSLIDE SLICES THROUGH VILLAGE

Pulverizing all in its way, Tokyo. Homes, roadways and railroad tracks were swept into the Sea of Japan and fires, also wrecked their toll. Total of casualties is not known. (AP Wirephoto)

## Bali's Volcano On Rampage —Death Toll More Than 400

JAKARTA, Indonesia (AP) — Feb. 19, killing 17 persons, Bali island's rampaging Agung volcano has killed at least 400 persons, a spokesman for the Indonesian civil defence organization said today.

The spokesman said there was an increasing threat of more violent eruptions from the 10,380-foot volcano in northeast Bali and President Sukarno had declared the tourist-mecca island a disaster zone.

It was not clear immediately whether the increased death toll was due to new eruptions. Previously, officials had put the death toll at 150 or more.

The volcano—quiet for more than a century—erupted briefly

## Kamloops Sought As Ally In Vernon's College Bid

VERNON (Staff) — Cancelling their Monday night meeting here to travel to Kamloops and seek support from Kamloops' council for the establishment of a college in the North Okanagan, Vernon city council headed by Mayor Bruce Cousins failed in their attempt.

Asked according to Canadian Press: "We listened to the brief presented by the Vernon city solicitor (Neil Davidson) asking us to endorse the college in Vernon. We made no decision and said we would give their request some consideration. We did not go on record in any way of supporting or being against the brief."

Other aldermen contacted by The Daily Courier this morning to comment on the concentrated drive by Vernon for neighboring support for the North Okanagan were equally hesitant.

Said one alderman who asked not to be identified: "I don't think I can comment on this, because as you know the mayor is very much against giving the Kelowna news media anything or Kelowna anything for that matter. The mayor headed the council group to Kamloops and it is for him to comment, not me."

## Pearson Hits Back At Tories But Claims He'd Rather Not

MONCTON, N.B. (CP) — Liberal Leader Pearson is continuing to strike back at Progressive Conservative criticisms of himself though he says he would rather not.

The Conservatives are following anti-American tactics in the election campaign, "that are unworthy of Canada," he told a crowd of 1,000 here Wednesday night.

Mr. Pearson also accused Prime Minister Diefenbaker of "betraying" Canada's defence obligation to its allies and of misrepresenting the motives behind the Liberal party's policy on nuclear weapons.

"I don't like this kind of sniping that's going on, this twisting of the eagle's tail feathers," he said. Conservative speeches on the subject always began "I am not anti-American but..."

Both here and at Summerside, P.E.I., earlier in the day, Mr. Pearson elaborated on his

constant theme that only the Liberals have a chance to form a majority government after the April 8 election.

The Conservatives would elect only a handful of MPs in Quebec and not much more than a handful in Ontario.

"They haven't a chance to form a majority government and they know it."

OFFERS NEW SLOGAN  
Wednesday night's meeting produced a new election slogan, "Pearson or paralysis," presented by Senator John Connolly, president of the National Liberal Federation. It's a paraphrase of the 1935 Liberal slogan "Kling or chaos."

Mr. Pearson carries his Atlantic provinces campaign into Nova Scotia tonight with the 12 Liberal candidates in the province. The Liberals elected two members of Parliament from Nova Scotia in last June's election.

## Douglas Hints At Support Of Liberal Nuclear Policy

REGINA (CP) — The Liberal party's pro-nuclear policy would not itself be a stumbling block to NDP support for a Liberal minority government, federal leader T. C. Douglas of the New Democratic Party said Wednesday night.

"We don't ask them to keep our promises, but we do ask them to keep their own promises," Mr. Douglas told an overflow crowd of 2,000 in a dance hall.

The NDP opposes nuclear arms for Canada.

Mr. Douglas repeated a statement made earlier at a press conference that his party would

be prepared to support a Liberal or Conservative minority government provided it takes early action to get the economy rolling and relieve unemployment.

But he had added at the press conference that the NDP would reserve the right to vote in Parliament against acquisition of nuclear arms.

Mr. Douglas restated his party's three-point program designed to bring new life to the farm economy.

WOULD AID FARMER  
The plan would preserve family farms by providing credit facilities to allow operators to effect needed improvements, recognize the principle of income parity as between farmers and business and labor, and recognize that agricultural abundance is "not a tragedy but a marvelous opportunity to develop the Canadian economy and contribute to improved living conditions in the world generally."

## GLOBAL GLIMPSES

### Blast Cuts Durban Link

DURBAN (Reuters) — An explosion cut one of the main Johannesburg-Durban railway lines early today. Police sealed off the area and stopped reporters from entering. They refused to say whether they suspected sabotage, but it was reported they found an unexploded charge.

### STRENGTHEN WALL

BERLIN (AP) — East German border guards are adding concrete slabs to the steel barriers and barbed wire fences along 1.5 miles between the Western and Communist checkpoints at the West Berlin end of the Autobahn from West Germany.

### CHINESE VISITOR ARRIVES

LONDON (Reuters) — Lu Hsiang-chung, Communist China's vice-minister for foreign trade, arrived by air today for a three-week official visit. Lu is the first official of ministerial rank from his country to visit Britain as a guest of the government. He heads a trade delegation.

### WANT A DOG?

PARIS (AP) — Chances are today Madame Danielle Gambin is asking around whether anybody wants a dog-free. A burglar broke into her apartment. Mme. Gambin struggled with him, and then her "police" dog went into action—against her. The burglar got away and Mme. Gambin was treated for bites on both arms.

### STOP PRESS NEWS

Appeal To JFK On South Korea Junta  
SEOUL (AP) — Former premier Huh Chung appealed to President Kennedy today to ask South Korea's military rulers to honor their promise to end South Korea's military rule this summer.

### Plane Loses Engine Over Pacific

WASHINGTON (AP) — A U.S. military air transport plane with 76 persons aboard was reported by the air force today to have lost one engine over the Pacific on a trip from Hawaii to the United States.

### Close Vote On U.S. Base In Australia

CANBERRA (Reuters) — Australia's opposition Labor party decided by a 19-17 vote today to support installation of a United States naval radio station planned for Western Australia.

### Ship Feared Lost Off Morocco

CASABLANCA, Morocco (Reuters) — Casablanca port officials said they fear the 3,884-ton Norwegian freighter Hoegh Zorndie sank early today off the Moroccan coast between Agadir and Essaouira. No reports of survivors have been received as yet.

### Liner Hard Hit In Atlantic Storm

HALIFAX (CP) — The 24,000-ton Italian liner Saturnia grounded 486 groggy passengers here Wednesday after one of the winter's stormiest Atlantic crossings from Lisbon, Portugal.

### Paratroopers Down In Plain Of Reeds

SAIGON (Reuters) — Paratroopers today jumped from 15 U.S. and 18 South Vietnamese planes in a big drop over the aluminous Plain of Reeds near the Cambodian border. U.S. military sources reported, two thousand South Vietnamese troops, including infantry, were involved in the operation.

### STEVENSON FLIES TO PARIS

PARIS (Reuters) — Adlai Stevenson, chief United States delegate to the United Nations, arrived in Paris by air today for talks with French cabinet ministers and American officials on UN matters.

### U.S. Bid To Boost NATO

PARIS (Reuters) — Adlai Stevenson, chief United States delegate to the United Nations, arrived in Paris by air today for talks with French cabinet ministers and American officials on UN matters.

### MEETS MINISTERS

Stevenson will meet Foreign Minister Maurice Couve de Murville Saturday and also expects to have talks with Information Minister Alain Peyrefitte. He doesn't expect to see President de Gaulle.

Stevenson will fly to London next Wednesday, followed by

# Graft Probe Told Equipment Rent Paid Employee

## Photostat Of Letter Shown As Witness Refutes Charge

VICTORIA (CP) — A department of highways employee made money out of rental of equipment on a highways project, it was alleged during graft hearings today.

Lloyd McKenzie, counsel for the British Columbia legislature's public accounts committee, produced a letter saying that rentals on a road scraper were to go to the employee, V. L. Greysty of Kamloops.

Mr. Greysty was mechanical engineer for the department of highways in Kamloops.

Mr. McKenzie was questioning H. A. Campbell, president of Mid-City Construction Co. Ltd., which had a sub-contract on Trans-Canada Highway Project \$19 in 1958.

The committee is investigating allegations that \$135,000 too much was paid by the department on the project.

Mr. Campbell also said in his testimony that Mr. Greysty was backing him in an equipment rental sideline.

Earlier Mr. Campbell denied any knowledge that Mr. Greysty was being paid for renting of equipment.

PHOTOSTAT PRODUCED  
But Mr. McKenzie produced

a photostat of a letter from Mr. Campbell to Union Contractors which was in charge of the project in 1958.

The letter referred to a scraper and said: "All rentals of the machine belong to Vince Greysty. Please apply the credits for this machine to him."

In other testimony, Mr. Campbell admitted that Mr. Greysty was the financial backer, and backed loans and signed notes by Mr. Campbell. He had loaned Mid-City \$2,000 or \$3,000.

He said he had purchased a dormant company from Mr. Greysty and his brother. But he could not recall paying anything for the shares in the company. He said that Vince Greysty expected to come into Mid-City at some time in the future.

Mr. McKenzie read a report of two RCMP officers in which Mr. Campbell was quoted as saying that Mr. Greysty was a financial backer.

Mr. Campbell said he did not recall making the statement.

Mr. Campbell, who testified that he was a personal friend of Highways Minister Gagliardi, said Mr. Greysty was also a friend of the minister.

PUNCH FOR MR. K

Cuban Premier Castro was quoted today as saying he would have punched Premier Khrushchev if the Soviet leader had come to Havana during the Cuban crisis last fall. The Independent Paris newspaper Le Monde published an interview with the Cuban Premier which also quoted him as saying he could not agree with the Russians on the withdrawal of their rockets from his country without consulting his government. In the interview with reporter Claude Julien, which Le Monde said lasted seven hours, Castro was reported to have added: "He Khrushchev avoided war but he did not win the peace."

## Caouette Believes Liberals Plan Road Accident For Him

DONNAcona, Que. (CP) — Real Caouette, deputy Social Credit leader, said today he believes reports from party sources that Liberal supporters are planning to stage a traffic accident that would put him out of action for the rest of the April 8 federal election campaign.

He first mentioned the report near the end of a campaign speech Wednesday night in this newspaper's manufacturing town of 30 miles southwest of Quebec City.

About 1,600 persons filled a church basement to overflowing for the meeting.

Mr. Caouette told a reporter today he is not making any changes in his travel plans and is not asking for a police escort in the light of the reports.

He said the Liberal party would suffer and his party would benefit if he were injured in a "deliberate accident," but he is convinced that the reports were authentic.

The reports were made to Social Credit's provincial headquarters in Montreal Wednesday in two telephone calls. One call was from a man who declined to identify himself and the other was from a Social Credit organizer in Montreal who said he had been told of the accident scheme by a Liberal party worker.

## Hunt For Tuna Cans Ordered Following Poisoning Deaths

DETROIT (AP) — Health authorities still seek positive answers today to whether contaminated tuna caused two food poisoning deaths, and, if so, how many cans from the same batch still are on pantry shelves.

If any of the 5,760 cans shipped to Detroit area A. and P. Food stores were contaminated, there were more than one? Were there others among the 26,400

cans of Japanese tuna packed the same day by the same West Coast packer?

Experts say the answers may be several days away.

Two Detroit women died of food poisoning tentatively diagnosed as "type E botulism," a rare type generally associated with marine life from extremely cold waters.

(In Toronto, a spokesman for Canadian A and P denied that canned tuna will be withdrawn from sale in its Canadian stores. "This report has nothing to do with the Canadian market," the spokesman said. "We have never imported canned tuna from the United States. We get most of our tuna from British Columbia.")

Mrs. Margaret McCarthy, 39, died in Detroit Tuesday, three days after her neighbor, Mrs. Collette Brown, 37, with whom she had shared a tuna fish snack late last week.

## Strike Chaos Grips France

PARIS (Reuters) — Railroad traffic was disrupted throughout France today as railroad employees staged two-hour stoppages at the beginning of each work shift, bringing further chaos to the strike-battered nation.

Heavy delays were reported on all main railroad lines, and on the Paris suburban commuter train network as the railroad men carried out their third recent strike in support of wage demands.

A four-hour stoppage by 140,000 electricity workers from 2 to 6 p.m. Wednesday paralyzed the French capital, halting subway and most suburban trains and causing huge traffic jams because the traffic lights went out.

The 240,000 miners in the state-owned coal industry were entering the fourth week of their strike today, supported in their drive for higher pay by other workers from almost all sectors of nationalized industry.

Saudi's Plane  
Report Denied

NICE, France (Reuters) — A senior official of King Saud's court here denied today that the monarch had made a direct personal statement to Radio Mecca charging crushed Jeddah was blown up by a bomb Wednesday.

"It is not the king's practice to send messages," Saudi Arabian Protocol Chief Abdel Monhem Akil told reporters, "and above all he would not make assertions before the full inquiry has been completed."

Carrying a large banner backing the cause of their husbands, wives of French strikers wave from the Eiffel Tower, Paris, to a camera-man clutching precariously on the girders to get an angle shot. Background scene shows Palais de Chaillot and the River Seine. The wives hope to see members of the government to plead their husband's case. (AP Wirephoto)

## UK Press Backs Miners In Stand Against de Gaulle

LONDON (CP)—If President de Gaulle reads the British papers on the subject of the French mining strike, he will be convinced once again that everybody but himself is out of step.

For press opinion, with surprising unanimity, has ranged itself on the side of the 182,000 striking miners and against the French chief of state.

The consensus is that de Gaulle, by ignoring grievances widely regarded as genuine, has manoeuvred himself into a position in which the only outcome is a general strike or a humiliating government retreat.

The strike leaders are convinced that the people of France believe that they do not enjoy their rightful share of the nation's wealth," says Claire Hollingworth of the Manchester Guardian in a dispatch from

Lens in northern France, one of the chief strike centres.

Robin Smyth in The Daily Mail notes the irony that after a dazzling foray into international politics—a reference to British exclusion from the Common Market—de Gaulle has "tripped up in his own backyard."

Smyth says de Gaulle is reacting with his usual weapons—"withdrawal and silence." He adds that despite a reputation for infallibility, "de Gaulle's statesmanship is often improvised and groping."

### AN INVITATION WORTH KEEPING

PEMBROKE, Bermuda (CP)—If you receive an invitation from Mrs. James E. Pearson to her son's wedding you'd better keep the envelope.

It might be worth \$300 or more.

Mrs. Pearson bought several sheets of three-penny stamps to send out the invitations to the wedding. She noticed that about a dozen of the stamps on one sheet were "funny looking."

"Some of the envelopes were sent to London, England," she said.

The odd stamps bore the outline of Bermuda Government House in white against a blue background, in contrast to the usual three-penny stamp that shows the government house outlined in brown.

A local stamp dealer said the incident recalled a case in Jamaica in January 1954, when sixty stamps were printed with the centre inverted. Only seven showed up after being issued and they sold for close to £750 (\$2,250) each at an auction sale.

QUOTES FRENCH MINER

Anthony Carthew of The Daily Herald quotes French miner Paul Creameux as saying:

"To be a miner is to expect only three things—the certainty of getting silicosis, the certainty of danger, and the lowest wage in France."

"We have no future, only a past which is painful and a present which is impossible."

The average monthly salary for French coal miners is 744.53 francs, about \$183 in Canadian terms. The mines are government-owned and the workers claim their wages have fallen 11 per cent behind comparable employees in private industry.

Iron ore miners who have returned to work, get higher wages.

British and French papers agree that the strike enjoys widespread public support.

The solidarity and strong feelings of the miners arise partly from the fact that wage claims tended to be suppressed during the long war in Algeria.

BRITISH AND FRENCH PAPERS agree that the strike enjoys widespread public support.

## Thompson Envisages Seaway From Rockies To Hudson Bay

EDMONTON (CP)—Robert Thompson, national leader of the Social Credit Party, says that his \$1,000,000,000 Canada could have a Prairie seaway from the foothills of the Rockies to Hudson Bay.

The seaway, he said Wednesday night would make Edmonton a "seagoing port" and give the Prairies a low-cost water transport system that would equal the Mississippi in the United States or the Rhine in Europe. The St. Lawrence Seaway cost \$475,000,000.

Mr. Thompson told a gathering of young Edmonton businessmen that a waterway—apparently linking the Saskatchewan River and the Nelson River to open a new 800-mile transport artery into Hudson Bay—would cut the cost of hauling western grain to its markets and so yield "a higher return to the farmer than ever before."

LOWERS SHIPPING RATE

The Prairie Seaway would also lower the costs of shipping raw materials to Canadian secondary industry.

Mr. Thompson advanced the idea of the western waterway

in challenging Canadians to recapture a spirit of pioneering "to dare the impossible and achieve a few miracles."

"The time has come for a new vision, a new purpose and a new approach," he told 115 members of Edmonton's Junior Chamber of Commerce.

His speech—winding up a day that saw him fly from Toronto to Edmonton and back by car to nearby Stony Plains for a farm rally—was largely a statement of Social Credit principles for monetary reform.

Firing a blast at Eric Kierans, president of the Montreal and Canadian Stock Exchanges, for his "slenderous and misinformed attack" on Social Credit, Mr. Thompson cited the four main monetary planks of his party:

Mr. Thompson continues his election campaign in the Edmonton area today (Thursday) flying to St. Paul, 100 miles northeast of here, and later driving to Weyburn, 50 miles south of Edmonton. Later tonight, he is to fly to Winnipeg for a jaunt into rural Manitoba tomorrow.

## AROUND BC BRIEFLY

### Mossy Rocks To Be Barred Following Girl's Death Fall

WEST VANCOUVER (CP)—Moss-covered rocks from which Leslie Williams, 11, slipped to her death in a creek 140 feet below Sunday will be fenced off from the public. The move was recommended by a coroner's jury which found Miss Williams died accidentally.

53% TAX BOOST

VANCOUVER (CP)—Mayor William Rathie Wednesday forecast an increase of about 15 per cent in city taxes this year, amounting to about \$38 more for the average home-owner. The average property tax bill last year was \$254.

RUBINIANS COMING

VANCOUVER (CP)—The Russian Bear will follow hard on the heels of Santa Claus in Vancouver this year. The world-famous Moscow State Circus will open its new week stand at the Pacific National Exhibition Christmas Day under the joint sponsorship of the Vancouver International Festival.

RED CROSS BORDER

SEOUL (Reuters)—The defence ministry said today about 20 armed North Korean soldiers attacked South Koreans after crossing the truce line Tuesday but were forced back after a 40-minute exchange of fire. There were no reports of casualties on either side.

## Safety Council Bike Licensing Request Denied

Kelowna city council, at a committee meeting, turned down the Kelowna Safety Council request to have bicycles licensed in the city.

Reporting to the Wednesday meeting of the Safety Council, Cecil Langton, publicity director for the Council, told the 19 members present: "We had hoped council would endorse this recommendation because the serious lack of control of bicycles is evident," he said, "and inspection of these bicycles should be a concern of everyone."

"If an accident occurs," said Mr. Langton, "it's a sure thing all concerned are going to be up in arms after the incident."

**EDUCATION**

"The only other alternative that the safety council has is to work with responsible parties to improve the adult education as well as the operator's education."

"The feeling of the council," he said, "is that training young people in the correct aspects of the operation of a bicycle, will save many lives as well as dollars, in the future operation of automobiles."

The safety council agreed to set up a committee to review this situation of bicycle safety involving the Parent Teachers Association as well as the other interested parties.

"We believe," said Mr. Langton, "there is a further potential that we may be able to explore at a later date."

## Fatal Accident Statistics In B.C. Show 1962 Worst Year In History

Mr. Mr. Langton told the meeting, according to the 1962 statistical report issued by the B.C. Safety Council, the toll of 1,156 fatal accidents in B.C. during 1962, was one of the highest ever recorded.

The report indicated property damage increased 10 per cent, a seven per cent increase in all accidents, 11 per cent increase in fatal accidents. There was an increase of five per cent in motor vehicle and cycle accidents issued during 1962.

A total of 111 fatalities were reported in January this year. This is 11 more than the same month last year.

The report shows a total of 43 deaths were attributed to motor vehicle accidents; two to drownings in water transport; one in other transport accidents; 13 by accidental poisoning; 15 by accidental falls; two caused by machinery accidents; five caused by fire and explosion; four by firearms accidents; seven by accidental

drownings and 19 by other causes.

The safety council will assist the city of Kelowna fire department in showing a special safety film entitled "That They May Live", at the regional meeting of Jaycees being held in Kelowna March 30 and 31.

The film depicts the proper use of "mouth to mouth" resuscitation used in numerous accidents in saving a life.

It was decided at the meeting to contact the Kelowna Recreation Director, Jack Brown, to have the stumps removed from the Aquatic pool before another session of swimming commences.

Bruce Deans and Charlie Lee will head the membership committee and will contact Matt DePuy and Fred Gibson, to assist them in setting up a workable basis to contact commercial establishments in Kelowna to allow the co-ordination of all safety efforts into an area where all will receive the maximum benefits.

## Special Meeting Called By BCFGA

A special general meeting of the British Columbia Fruit Growers Association will be held at 10 p.m. on April 22 at the Royal Canadian Legion Hall in Penticton.

The purpose of the meeting is to discuss the report of a special committee set up to determine whether controlled atmosphere storage should be acquired by the individual packing houses of the the industry as a whole.

The committee has completed its study and recommended the industry should build and operate a C. A. storage of approximately 135,000 box capacity in time to serve the 1963 apple crop. The total cost of such a unit is estimated to be \$300,000.

Two resolutions will be put

before the meeting for approval.

The first will ask for the authorization of the executive of the BCFGA in conjunction with the directors of B. C. Tree Fruits and Sun-Rype Products Ltd. to proceed with financing and construction of such a C. A. storage by Sun-Rype Products Ltd.

The second will request the general meeting to authorize and approve an increase of \$100,000 in the advances which B.C. Tree Fruits is authorized to give Sun-Rype Products Ltd. for its capital requirements. This increase in advance will come from the general apple pool and will commence with the 1963 pool. Such advances shall not exceed \$300,000 at any one time.

## Eagle River Defeats Penticton In School Debating Contest

WINFIELD — Eagle River high school from Sicamous defeated Penticton in the finals of a debating contest for the Laen Perry Wade debating cup, Tuesday in Winfield and Rutland high schools.

The debating teams from each school were divided in half and given either affirmative or negative side to debate on the issue: "Do I resolve that compulsory attendance at school be raised from fifteen to eighteen."

At George Elliot, Nina Ross and Ralph Gerwing took the affirmative for Penticton and Read Smith and Bernadette Sudeo debated the negative for Eagle River. Penticton took the negative and Eagle River the affirmative in the debate at Rutland.

Following the conclusion of the contest at each school, judges combined totals achieved by teams at the respective schools, with Eagle River winning 76-62.

## Arthritis Society President Reports On Provincial Confab

H. C. Langton, president of the Kelowna branch of the Canadian Arthritis and Rheumatism Society, was branch delegate at the annual provincial conference in Vancouver, March 5 and 6.

The theme was "Research". The agenda included the official opening of the new Virology Laboratory, Department of Pathology at U. B. C., headed by Dr. Jann Oh, under Dr. Deyns Ford, towards which C.A.R.S. contributed \$13,000.

At the regular March meeting Mr. Langton told the Kelowna branch of the apathy to be overcome if the \$400,000 needed for research this year in Canada is to be realized. Mr. Langton plans to cover a different and interesting phase of provincial conference at each meeting throughout the year.

Miss J. Critchley, Kelowna C.A.R.S. physiotherapist, reported 179 treatments, 50 patients in February, three non-arthritis.

There were 15 new patients and five were discharged. Fees collected amounted to \$57.25 and car mileage was 1,200.

Miss Critchley spends part of each week treating patients in the Vernon area, where they have been without physio for 18 months. She is at the hospital clinic in Vernon three times a week.

C.A.R.S. handyman, F. G. Eldstrom, made a special table desk with an adjustable top for the use of a bed-ridden patient. A special vote of thanks was moved by the directors for the large amount of work he has done for the branch in the past year.

In the absence of Mrs. F. Simons, pres. of the women's auxiliary, Mrs. E. R. Winter reported on activities for February.

## Two Cases Heard By Magistrate

In two cases heard in city court this morning, J. E. Lestage of Kelowna, pleaded guilty to being intoxicated in a public place early Thursday. He was remanded to Friday for sentence.

W. K. Millar, of 830 Harvey Ave., Kelowna, pleaded guilty to failing to stop at a stop sign on Highway 97 near Monte Creek. He was fined \$25 and costs.

**NEW LAMP**

Two hundred dollars was sent to Vancouver for the Blue Bird House Fund, and \$50 towards research.

The W. A. authorized Miss Critchley to purchase a new infra-red lamp for the clinic.

Mrs. T. F. McWilliams was appointed Kelowna representative on the provincial board of directors.

The next meeting of C.A.R.S. will be at the Health Centre Annex, April 2 at 7:30 p.m.

## SPRING TRAINING STARTS ALL OVER

According to the calendar, Spring 1963, began at 3:20 a.m. EST today. With a forecast high in Kelowna today of 58 degrees the warmest so far this year, youngsters, and the

elderly alike began to think seriously of spring and its attendant fun. School yards were full of youngsters trotting out the warm-weather games and up at St. Joseph's school,

Sister Bernice, a grade III teacher, took time out to give a little extra instruction to David Vetter of 2163 Aberdeen St. in the art of shooting marbles. (Courier Photo)

## Housing Demand Doubled Compared To 1962 In City

Housing demand in Kelowna during January-February this year is up almost 100 per cent over the same period last year, said Dave Davies, Manager Central Mortgage and Housing Corp., Kelowna.

"I think the favourable weather conditions have been a determining factor," he said,

"along with the fact that there has been a greater demand." During these two months 12 single family dwellings were started, and 11 are NHA approved. In comparison during the same two-month period in 1962, six single family dwelling starts were made and only two of this total were NHA.

Thirty-two multiple dwelling units were started during January-February 1963, while during the same period in 1962 there were no multiple units started.

Total housing under construction to February 23 is 98, compared to 79 at the same time last year.

Total single and multiple dwelling completions to February 23, 1963 is 19 compared to the same figure in 1962.

## CITY CHAMBER OF COMMERCE BACKS MACDONALD REPORT

The 45 members of the Kelowna Chamber of Commerce Wednesday night at their regular monthly meeting unanimously passed a resolution completely backing the Macdonald report on higher education and its suggestion an Okanagan college be established near Kelowna.

Speaking to the motion, Charles Bruce, chairman of the chamber education committee, said it was time Kelowna groups made their intentions known on the Macdonald report.

## VERNON

In Vernon only two single family dwellings were started and only one is NHA approved. This compares to one single unit start during the same time last year.

Total housing under construction in Vernon to February 23, 1963 is 23, compared to 41 during same period last year.

Total single and multiple dwelling completions to February 23, 1963 is six compared to seven the previous year.

"Some months ago we had all the mayors of the Valley as guest speakers at our chamber meetings," he said. "There was co-operation within the Valley."

"The central theme of the Macdonald report was co-operation."

"This theme needs to be re-emphasized."

"There has been much discussion up and down the Valley and a good deal of it has not been co-operation. People in Kelowna have not said very much, lest it should lend fuel to the fire."

"We must now make our intention known and do everything we can to see the Macdonald report is implemented," he said.

## Plumbing And Heating Men Hear Lecture, Demonstration

More than 40 plumbing and heating journeymen and apprentices attended an instructional program meeting held in Kelowna Wednesday.

The meeting was sponsored by a Copper and Brass company in conjunction with the B. C. Plumbing Industry apprenticeship board and the B. C. Branch of Canadian Plumbing and Mechanical Contractors association.

Norman Uphill, co-ordinator of the Plumbing Industry apprenticeship board, Vancouver, told the meeting, "We are looking for men who want to get ahead in the industry. Men who are looking for a higher education within the industry and who are prepared to keep abreast of the rapid developments."

"If we can stimulate enough interest with in the industry," he said, "we will make every endeavour with the provincial government and the department of education to bring to the worker the instruction and facilities that will enable them to advance in their own field."

Said Mr. Uphill, "at one time this year the apprenticeship board had 50 apprentices who were looking for work, and through our efforts in training assistance and placement, we haven't one apprentice out of work right now."

"We have approximately 250 journeymen in the industry who have attended eight-week advancement courses during the last three years. This is the

type of interest we want to stimulate."

"If enough workers can show us they are interested," he said, "we hope we can set up a centralized location in the Valley and conduct regular seminars, with qualified instructors."

Dr. Gordon Leitch, of Portland, Oregon, Wednesday night told the Kelowna Chamber of Commerce that Canada must return to individualism if it is to realize its place in the world.

Dr. Leitch, whose hobby is political science, was guest speaker at the monthly dinner meeting of the chamber attended by 60 members.

Speaking on the topic, "Is some form of union with the United States the panacea for Canada's politico-economic ill?" Dr. Leitch said the United States was born on the premise of the eminence of the individual, but it was turning from that to statism.

"You can't solve your problems by joining us in ours," he said. "This is Canada's opportunity."

**SPIRITUAL REVOLUTION**

"Seize upon this individualism and make it work. It will take a last three years. This is the spiritual revolution," and some

say you are not ready for it. That may be.

The doctor quoted from a survey taken in Canada in 1961 that said there were four major problems in Canadian business. The first was the division of bilingualism; the strong British traditions; the lack of understanding of the United States and the tendency to turn to the government or to use police power under stress.

"The real revolution that set up the United States was not the bloody one against George III, but rather the concept that individualism was supreme."

Dr. Leitch mentioned three "jerks" in the governmental leath in recent months as the Premier Bennett take over of the B.C. Power Company, the Lloyd Implementation of medicine in Saskatchewan and the minister Diebenaker after the

**NO PROBLEM YET**

MONTREAL (CP) — Teenage marriages are not a problem in Canada yet, says Mrs. Dorothy Barrie, director of the Montreal Marriage Counselling Centre. But, she said, "if they follow the trend in the United States, a situation will develop which would cause concern."

Last year the average marriage age in Canada was 19 for girls and 25 for men.

**NO RESOURCES**

"You must remember government has no resources of its

own. When it is restricted to governing, people have to turn to themselves. In the United States we are turning to the omnipotence of the government. "You can't deficit spend yourself rich. There is a terrible retribution about to descend."

"Since man derives his being from God and not from the state, he must command the state and not the other way around."

"The leath held by the government, even here in Canada is there, even if it isn't felt," he said.

Dr. Leitch mentioned three "jerks" in the governmental leath in recent months as the Premier Bennett take over of the B.C. Power Company, the Lloyd Implementation of medicine in Saskatchewan and the minister Diebenaker after the

## Chamber Help Asked On Ski Development Paved Road Needed

Doug Mervyn Wednesday night told the Kelowna chamber of commerce meeting of work that was being done to set up a ski area on Big White Mountain and asked the chambers help in getting the Joe Rich Road paved.

John Foote, committee chairman for transportation, introduced Mr. Mervyn and said the chamber was working to get the Joe Rich Road to Carleton and Beaverdell improved. He said 25 miles of this road was used to get to the new ski area and asked Mr. Mervyn to describe the work that had been done on the hill.

"We have all our permits and have a preliminary eight mile access road built," said Mr. Mervyn. "My partner, Cliff Serwa and I have set up the Big White Ski Development Co., and we have been working all winter."

We have been working slowly, so we will be able to eliminate errors we have found on other hills. We have seen most of the areas now in use in the northwest and in Europe and we feel this mountain has what it needs, to put a fine tourist attraction right on Kelowna's doorstep.

"Apex and Silver Star are doing a fine job, but there is plenty of room for us as well."

"On Sunday we still had a measured average of five feet of snow on the hills, the area is on the south slope and varies from 7,600 to 6,000 feet. We had temperatures of up to 50 degrees there this winter, but at that altitude the snow stays cold and provides excellent skiing."

"Our lift line has been located and it will be 6,000 feet long and in operation next fall. We

have located the spot for the Rich road, leading to the area chalet.

"We now have four miles of road cleared to a 30 foot width immediate area to come to our and the grade and corners are mountain," he said.

better than many we have. The chamber said they would continue their efforts to have the 25 miles of the Joe Rich Road paved.

**FINE ATTRACTION**

"We have been working slowly, so we will be able to eliminate errors we have found on other hills. We have seen most of the areas now in use in the northwest and in Europe and we feel this mountain has what it needs, to put a fine tourist attraction right on Kelowna's doorstep."

"Apex and Silver Star are doing a fine job, but there is plenty of room for us as well."

"On Sunday we still had a measured average of five feet of snow on the hills, the area is on the south slope and varies from 7,600 to 6,000 feet. We had temperatures of up to 50 degrees there this winter, but at that altitude the snow stays cold and provides excellent skiing."

## City Blood Clinic Needs "Miracle"

The Red Cross Blood Donor's Clinic is going to fall well below its quota unless a miracle happens today, said Mrs. Richard Stirling, clinic chairman, today.

"We always had a large gap during the afternoons with only one or two donors coming," she said. "We could have handled a lot of donors then instead of being over-crowded in the evening."

"We want to see a full house tonight because this blood is very badly needed. I hope we can still make our quota."

Clinic hours are from 1 p.m. to 4 p.m. and 6:30 to 9:30 p.m. The clinic moves to Winfield on Friday.

## Sunny Skies Greet Spring

Sunny skies and warm weather greeted the first day of spring today in the Kelowna area while unsettled weather prevails over most of the province.

The weather office in Vancouver reports a slow moving disturbance extending across Vancouver Island into the central interior causing unsettled weather over most of B.C.

This disturbance will shift eastward in the next day or so but progress is expected to be slow. Hence rather little change in the weather pattern is forecast.

Mildest temperatures will persist in the southern interior though even here a trend toward somewhat colder values is expected as the weather system drifts eastward.

High and low temperatures recorded in Kelowna Wednesday were 58 and 37, temperatures on same date last year 50 and 29.

## Special Planning Lecture Here Discussion, Seminars Follow

Dr. John Jackson from the planning department, U. B. C. will give a public lecture Saturday, March 23, at 10:30 a.m. at the city hall council chambers.

The talk will be in two parts: "Traffic and Land Use: Conflict or Harmony" and "Understanding as a Basis for Community Action."

Dr. Jackson was the first speaker in the current series of planning lectures given by planners from communities in B. C. and Alberta.

The lectures will be followed by lunch and a study-discussion period for those interested. The discussion group will then meet for separate two-hour discussions.

Plans are now in the making to officially mark the end of tolls on Okanagan Lake bridge April 1.

The tentative idea is for Premier W. A. C. Bennett to drive the first officially toll-free car across the bridge at 10 a.m. A luncheon attended by municipal government and chamber of commerce dignitaries may follow.

Legislation passed at the present sitting in Victoria removed tolls from a number of bridges, including Okanagan Lake, effective midnight March 31.

Mayor R. F. Parkinson is now at the coast and was not available for comment on the plan.

## Martin Misses Kelowna Date

The Hon. Paul Martin, Liberal candidate for Essex East and former minister of health and welfare, failed to arrive, as scheduled, in Kelowna today.

Mr. Martin's aircraft was grounded in Prince George this morning due to weather conditions, and it is not known whether he will arrive in Kelowna later today or fly direct to Kamloops where he is scheduled to speak tonight.

## Guidon Fete Postponed

Capt. Rex Lupton, co-ordinating officer for the planning Guidon presentation to the British Columbia Dragons in Kelowna, said today the presentation had been postponed.

"Contrary to reports now circulating," said Capt. Lupton, "The presentation will not be held on May 18 and 19 as originally scheduled."

"We don't know who will present our colors or when, at this point, but we have been assured it will take place this year."

The Dragons had originally asked, and received, permission from city council to have the event in city park oval on the May date.

## Premier May Mark End Of Bridge Tolls

Plans are now in the making to officially mark the end of tolls on Okanagan Lake bridge April 1.

The tentative idea is for Premier W. A. C. Bennett to drive the first officially toll-free car across the bridge at 10 a.m. A luncheon attended by municipal government and chamber of commerce dignitaries may follow.

Legislation passed at the present sitting in Victoria removed tolls from a number of bridges, including Okanagan Lake, effective midnight March 31.

Mayor R. F. Parkinson is now at the coast and was not available for comment on the plan.

## Road Construction Reported In Allison

The B.C. Department of Highways in Kelowna reports all B.C. highways in good condition.

Allison Pass—road bare with some frost heaves. Construction at Mile 32.

Princeton—road good, watch for frost heaves.

Rogers Pass—mostly bare with slippery sections sanded. Road generally good.

Revelstoke—road is bare and good.

Kamloops — conditions are good.

Fraser Canyon—road good except construction areas rough. Road closure Friday, 8:30 a.m. to 12:30 noon between Yale and Boston Bar.

Cariboo—bare and good with frost heaves.

## SEAPLANE REFUELS

A seaplane travelling from Victoria to Vernon made a stop for fuel at the Kelowna seaplane base today.

The seaplane making a regular stop in Kelowna, carried six passengers and a pilot. Names of the plane's occupants were not disclosed.

## PORTLAND DOCTOR CHAMBER OF COMMERCE GUEST SPEAKER

## Return To Individualism Said Necessary

Dr. Gordon Leitch, of Portland, Oregon, Wednesday night told the Kelowna Chamber of Commerce that Canada must return to individualism if it is to realize its place in the world.

Dr. Leitch, whose hobby is political science, was guest speaker at the monthly dinner meeting of the chamber attended by 60 members.

Speaking on the topic, "Is some form of union with the United States the panacea for Canada's politico-economic ill?" Dr. Leitch said the United States was born on the premise of the eminence of the individual, but it was turning from that to statism.

"You can't solve your problems by joining us in ours," he said. "This is Canada's opportunity."

**SPIRITUAL REVOLUTION**

"Seize upon this individualism and make it work. It will take a last three years. This is the spiritual revolution," and some

say you are not ready for it. That may be.

The doctor quoted from a survey taken in Canada in 1961 that said there were four major problems in Canadian business. The first was the division of bilingualism; the strong British traditions; the lack of understanding of the United States and the tendency to turn to the government or to use police power under stress.

"The real revolution that set up the United States was not the bloody one against George III, but rather the concept that individualism was supreme."

Dr. Leitch mentioned three "jerks" in the governmental leath in recent months as the Premier Bennett take over of the B.C. Power Company, the Lloyd Implementation of medicine in Saskatchewan and the minister Diebenaker after the

own. When it is restricted to governing, people have to turn to themselves. In the United States we are turning to the omnipotence of the government. "You can't deficit spend yourself rich. There is a terrible retribution about to descend."

"Since man derives his being from God and not from the state, he must command the state and not the other way around."

"The leath held by the government, even here in Canada is there, even if it isn't felt," he said.

Dr. Leitch mentioned three "jerks" in the governmental leath in recent months as the Premier Bennett take over of the B.C. Power Company, the Lloyd Implementation of medicine in Saskatchewan and the minister Diebenaker after the

"My understanding of politics is that it is a giant confidence game," said the doctor.

"Every event must be resolved in terms of increased power for the political machine and political bureaucracy never die—they just go on growing."

"You must limit your government to governing. When liberty dies in the hearts of men no government can help."

"For instance, I would like to impress upon you that socialized medicine has nothing to do with the medical profession. It is completely political, and in one more example of the confidence game."

"Canada has tremendous land masses and tremendous resources but in order to develop them, she must have people and capital."

**STABILITY**

"Until you can show people you have a higher regard for

the individual, those who come to live in your country will only stay here long enough to get into the United States."

"You must revise your tax structure and return to the gold standard to gain the capital you need."

"The government is taking too big a percentage of what Canadians earn."

"A return to the gold standard would be the greatest stability factor in your economy and it would keep the government out of financial locus pocus."

"I have suggested a number of things I would like you to think about. I am a Canadian taxpayer, I have studied governments. I have studied your country."

"I suggest the time for deep thinking about your future has come," said Dr. Leitch.

## Curling Has Come Far In Century and Quarter

The 1963 Ojopogo bonspiel will be held this weekend out it is unlikely that many of the participants will give more than a casual thought to the long history of the game which is rapidly becoming Canada's greatest participation sport.

Curlers around the world honor the fame of the mother club of the "roarin' game", the Royal Caledonian Curling Club. The feet of the wandering Scot have carried its story into many lands, including England and Ireland, Norway, Sweden, Russia and New Zealand, the United States and Canada.

Canada has become the true home of the game in the western world and boasts of more curlers than any other country. Here, the annual "Brier" competition settles for the year the champion curling rink of the Dominion.

This year is the 125th anniversary of the founding of the Grand, later the Royal, Caledonian Club. In July, 1838, in the Waterloo Hotel in Edinburgh, forty-four gentlemen, representing 36 clubs from different Scottish districts, met and with great enthusiasm passed the following resolution: "That this meeting do form itself into a club, composed of the different initiated clubs of Scotland, under the name of the 'Grand Caledonian Curling Club'."

Dr. John Cairnie of Largo, was elected the first president. He was a grand old curler who invented artificial ponds for the sport, and was a prominent member of the famous Duddingston Club.

Five years later the "Grand" became the "Royal". The young Queen Victoria and her husband, the Prince Consort, were entertained in 1842 by the Earl of Mansfield at the palace of Scone. On behalf of the curlers, the Earl presented to the Prince a splendid pair of Ailsa granite curling stones, with silver handles and a suitable inscription.

Her Majesty made particular enquiries of the Earl concerning the game, and to illustrate his replies, the Earl had the polished oak floor of the room converted into a rink. On this he initiated the Royal couple into the mysteries of the game.

The following year the Grand Club sent a petition to Her Majesty to use the title "Royal." Permission was granted and as the word "Grand" was now superfluous, it was dropped.

Curling has been known as Scotland's national winter game for near-

ly 200 years, although its history goes back that far again. There is no record as to where it originated, and attempts to trace it back to the continent have been unsuccessful. Scottish historians before 1600 AD make no mention of the game.

George Ruthven, (1546-1658), a physician of Perth, is the first 'brother of the broom' of whom there is a record. He remembered the visit of John Knox to Perth when he was a lad of 13, and he followed his favorite sport to a very great age.

Since the early stones had no handles there was a hollow on one side for the thumb and on the other side for the fingers. About the year 1650 handles began to be fitted to the stones, and specimens have come to light with the draining of ponds. The stones were of many varieties and shapes, but were usually large and heavy.

The 'Jubilee Stone' was presented to the Royal Caledonian Club on its jubilee in 1888. It had been used earlier by John Hood of Cockburnspath, and weighs 117 pounds.

On this side of the Atlantic the first club was formed in January, 1807 in Montreal. Governors - General like Lord Dufferin and the Marquis of Lorne, ardent curlers in the old country, gave encouragement to the sport that soon spread into Ontario. There a club was organized at Galt in 1838. With the rush of settlers to the western provinces, there came also their favorite winter sport.

Curling is not a newcomer to Kelowna. It was not long after the turn of the century that the sport was played on ponds and later cement slabs, to hold the ice, were built on Leon Avenue. Later, to fight the mildness of the climate as well as they might, the curlers moved to the top of the Bankhead hill, to take advantage of the two or three degree colder weather. But curling was an uncertain sport because of the weather and a week or, if lucky, two weeks was about the best that could be expected.

It was that is, until the arrival of artificial ice and the Kelowna Curling Club. And now there are two rinks for the devotees of the 'roarin' game. Those original members of the Grand Caledonian Curling Club 125 years ago would be astonished to see the development of the movement which they began.

YOU AIN'T HEARD NOTHIN' YET, ALICE!

## South Viet Nam War 'Nasty' But Many Don't Realise It

By HAROLD MORRISON  
WASHINGTON (CP) — The U.S. Army chief of staff says there's a tough, nasty war going on in South Viet Nam and many persons don't realize it. He says the war may go on for another three years before victory over the Communist Viet Cong is finally achieved.

General Earle Wheeler's blunt portrayal of U.S. operations in that rice bowl jutting out of Southeast Asia is disclosed in a censored public version of closed-door congressional hearings on U.S. military posture.

For years the U.S. has been pumping money and men into South Viet Nam in support of the Saigon administration headed by President Ngo Dinh Diem, a man reported to hold control over his country by police means, highly authoritarian and intolerant of political opposition.

In an open letter published as an advertisement in the Washington Post March 13, a group of about 60 U.S. authors, lawyers, clergymen and professors

urged President Kennedy to end the Vietnamese war and stop supporting Diem whose regime was described as an "open and brutal dictatorship." The group proposed a special United Nations conference be called to work out a peaceful solution.

**AID POURS IN**  
Pouring in aid at the rate of about \$1,000,000 a day—or a total of more than \$2,000,000,000—the U.S. appears to have given little consideration to the question of whether the majority of people in South Viet Nam really want Diem or whether victory over the Communists will simply mean the establishment of another totalitarian state. The immediate problem is to make sure Diem is not overthrown.

"The survival of an independent government in South Viet Nam is so important to the security of all of Southeast Asia and to the free world," says Defence Minister Robert McNamara, "that we must be prepared to take all necessary

measures within our capability to prevent a Communist victory."

A year ago, the U.S. had 900 "advisers" with Vietnamese military units. Now, says Wheeler, there are 3,000. All told, the U.S. has more than 11,000 men in South Viet Nam, some shuffling military papers in Saigon and some in the field, manning helicopters and bombers spreading napalm fires over rice paddies and jungles, to smoke out the elusive Viet Cong.

**ARMY BETTER**  
The South Vietnamese have an army of about 200,000—described by Wheeler as being—until recently—slow and awkward in its operations, marked by poor reconnaissance and attacking with poor military intelligence.

Now things were a little better. "The American-supported Vietnamese now were attacking the villages; laying them to waste if necessary to drive out the Viet Cong and cut them off from food supplies."

Viet Cong losses and defections were increasing, yet somehow their leaders were filling up the ranks and even increasing their strength.

"It is a very nasty war, as a matter of fact, a very tough war," says Wheeler. "It is not a war on organized fronts such as we fought in Korea or in the Second World War. It is scattered all over the country." Yet as nasty as it was, the Vietnamese war was proving helpful to U.S. forces. They now had an area to put their training into practice. About five dozen American servicemen have been killed; scores of others wounded.

## Italians Now Stay At Home

ROME (Reuters)—Europe is replacing North and South America as the magnet for Italy's would-be emigrants.

The two main causes of this are probably: 1. Overcrowding in Italy. 2. The growth of the Common Market has opened new possibilities in Europe. By going, for example, to West Germany, the Italian worker can keep in touch with his family, coming back to see them for Christmas or holidays, and returning home for good if he wants to after a year or two and enjoy the security benefits shared by agreement among the six Common Market countries.

In 1961, the last full year for which official statistics are available, out of 379,399 emigrants, only 58,504 went overseas. The rest went to Europe. Incomplete figures for 1962 confirm this trend.

Pride of place among overseas destinations is shared by Australia, Canada and the United States, which each take about 15,000 to 20,000 a year.

Dear Dr. Molner: Recently a friend of mine began drinking and has continued for over two months. I doubt that he will live long enough to get cirrhosis of the liver. What alcohol content can the body tolerate at one time?

He drinks beer every day until 5 o'clock, and then drinks two fifths of liquor in highball form before midnight. Your answer may help me convey to him the danger of drinking at this rate. —R.J.B.

He must have worked up to this enormous amount of alcohol over a period of time—perhaps unknown to you.

If you can get him to see his problem you'll be doing him a favor indeed, because he is in grave danger.

The amount of alcohol the body can tolerate varies somewhat with the individual and his size, but it is generally believed that the body can dispose of about an ounce an hour—not that it is safe or sensible to attempt that maximum.

But quite aside from the toxic effects of alcohol, most problem drinkers don't eat well or regularly, and the lack of suitable food not only increases the risk of cirrhosis but aggravates the poisonous effect of alcohol on brain, nervous system, stomach and body in general. I hope you can help your friend.

Dear Dr. Molner: How long do phlegm glands survive if they cannot enter the body?—Mrs. S.B.

In cool, moist surroundings, perhaps weeks; in dry, sunny weather, only a couple of days.

## UNITED KINGDOM REPORT

### 'Scrapers' Raise Riot

By M. McINTYRE MOOD

Special London (Eng.) Correspondent

For The Daily Courier

CROYDON, London—Under a big new re-development scheme at Croydon, in which skyscraper blocks of offices, with stores on the ground floor will be erected, it is expected that the borough will eventually have a daily influx of 30,000 extra office workers coming into it. But the prospect is not a very pleasing one to many of the residents of the town, nor even to its shopkeepers.

The complaint of the storekeepers is that these 30,000 extra office workers will not produce very much in the way of extra trade for their shops. These workers, they believe, will commute to Croydon, earn their wages there, and then go off to the other districts where they will have their homes and spend their money in them.

There is good reasoning behind this complaint. It is this. While there will be thousands of new jobs for workers in the Croydon office blocks, there are no homes available in the borough in which they can live. So they will have to be commuters from other residential districts.

**LIKE MANHATTAN**  
Members of the Croydon Chamber of Commerce say: "Croydon each day gets to look more and more like Manhattan, but while the giant office blocks are rearing their Americanized heads into the sky, comparatively few houses and apartment blocks are being built in the borough. Thousands of new workers are being brought into Croydon, but there is no living accommodation for them. They come into the town every morning and then leave it again in the late afternoon."

**NOT MORE CUSTOMERS**  
J. H. Whittall, president of the chamber of commerce, says: "To have 30,000 extra workers in the town does not mean 30,000 customers for our shops. Very few of them can find homes in Croydon, so, at the most, these people have little more than an hour each day in which to do shopping here. And that is mostly in the lunch-hour when a trader wants to shut his shop while he has his own lunch, or at night, when the shopkeepers are preparing to close for the day."

## Events Of 1939 Hard To Believe

By JOSEPH MacSWEEEN

LONDON (CP)—Is it possible to observe the anniversary of a time that one almost feels didn't really happen . . . ?

Today it is easy to forget that only 25 years ago demonic Hitler began the march into Austria that ended in history's most nightmarish dance macabre and slaughter.

Estimates of the death toll—as recalled in a sort of mood of disbelief by London newspapers—go up to 30,000,000 people, nearly twice the population of Canada. Psychologists have long said the enormity of it numbs the imagination.

But it is odd to find that in this city where some pubs still hang blackout curtains as a gesture to the war years, the memory is blurred and the impact not so far from make-believe.

Actually, Hitler's first overt move was into the Rhineland in 1936 but it wasn't until two years later that he jumped Austria, his homeland.

**'AMAZING APLOMB'**

The note the commentators now hit is that it was all unnecessary—that the democratic countries sat back supinely, allowing the Germans to develop a powerful war machine. This isn't entirely new but some facets are fascinating. William Connor, who writes under the name Cassandra, quotes Hitler himself as saying about the Rhineland adventure: "I was obliged to lie, and what saved us was my unshakable obstinacy and my amazing aplomb."

Amazing indeed. William L. Shirer, in his book *The Rise and Fall of The Third Reich*, said that the French Army could easily have gobbled up the few German battalions that crossed the Rhine at that time—and he added that nobody knew this better than Hitler. Winston Churchill, in *The Gathering Storm*, said that the eventual entry of the German mobile formations into Vienna March 13, 1938, was a fiasco of inefficiency that left Hitler "infuriated."

"The fuhrer was in fact convulsed with anger at the obvious shortcomings of the military machine," Churchill wrote.

**DIPLOMATIC FAULTS**  
Despite these military conundrums, the commentators suggest that it was probably in diplomatic matters that Hitler's foes showed themselves to be real thickheads.

Lord Lothian said in the House of Lords about the Rhineland that "the Germans after all are only going into their own back garden," a quotation more easily understood in the politi-

cal climate then existing.

Then there was the Austrian chancellor, von Schuschnigg, whose fate it was to preside over the Anschluss (union) of Germany and Austria, although his predecessor had been murdered by the Nazis.

Shirer reported: "Perhaps he was in a daze from his ordeal (with Hitler). After signing away his country's independence at the point of a gun he indulged in a strange conversation with Hitler which he himself later recorded in his book."

**PROMISING OUTLOOK**

"Does the Herr Reichskanzler," he asked, "believe that the various crises in the world today can be solved in a peaceful manner?"

"The fuhrer answered fatuously that they could—if my advice were followed." Whereupon Schuschnigg said, apparently with no sign of sarcasm: "At the moment the state of the world looks rather promising, don't you think?"

Churchill reports on an incident that occurred about the same time in London, when he was a fellow-guest of German Foreign Minister von Ribbentrop at the home of Prime Minister Chamberlain, when the Austrian Anschluss occurred. The German kept the English statesmen in conversation deliberately as long as he could so they couldn't act on the Austrian question. Says Churchill: "This was the last time I saw Herr von Ribbentrop before he was hanged."

## TODAY IN HISTORY

March 21, 1943 . . .

The Duke of Connaught was appointed Canada's 10th governor-general since Confederation 52 years ago—in 1911—to succeed Lord Grey. The third son of Queen Victoria was a noted soldier and was created a field marshal in 1902. He first visited Canada with the British Army and served in the Red River expedition in 1870. During the First World War he organized the Canadian Patriotic Fund to give aid to dependants of service men. One of his daughters, Princess Patricia, gave her name to the famous Princess Patricia's Canadian Light Infantry.

1685 — Composer Johann Sebastian Bach was born.

1666 — The first census in Canada showed a population of 3,215.

## Must Work Together

"There shall rise from this confused sound of voices,  
"A firmer faith than that our fathers knew."

These words by Sir Lewis Morris at the start of this century could, in all probability, be applied today in the controversy and confusion which has arisen over the recommendations of the Macdonald report on higher education as it applies to the Okanagan.

For confusion there is. Not only on the part of municipalities within the Valley but among groups who say they are informed.

The province of British Columbia is fortunate in having a thoroughly capable educator in University of B.C. president Dr. John Barfoot Macdonald.

It was he who, at the request of the UBC Alumni Association, carried out a survey on the province's needs on higher education. His findings, subsequently, were forwarded to the provincial government and the latter group has decided — wisely — to implement most of the recommendations.

These recommendations also include

a college in the Okanagan located at a site on the west bank of Okanagan Lake near Kelowna.

From our observations, every municipality organization in the Okanagan has unanimously endorsed the recommendations of the report.

Unity fails on only one point—whether the college will ever attain the status of a four-year degree granting institution.

Without committing themselves beforehand, the government, after the report was published, decided the recommendations warrant support.

It is only sense that if the government of our day—Social Credit—adopts some recommendations now, that they will adopt the remainder.

The people of the Okanagan have a choice—it is up to the residents to seek and work for fullest implementation.

We feel that by increased unity, common sense and farsightedness, the Valley will boast—before 1971—of a four-year degree granting college as recommended by UBC's head.—*Penticton Herald*.

## TO YOUR GOOD HEALTH

### Turn Doc's Face Red!

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: I have an underdeveloped uterus. What does this mean? Is there any chance of my ever having children? I love them.—Mrs. D.

The term means that the organ is smaller than average for an adult woman. "Infantile uterus" is also sometimes used as an apt description.

There's a great deal we don't know about why some people develop differently, but this particular condition has been found in certain constitutional types: for instance, women with small breasts and thin musculature.

As to your chances of becoming pregnant, I am through with predictions. If your menstrual pattern is reasonably normal and ovulation occurs, pregnancy is quite possible.

On the other hand, if there is some glandular deficiency, fertility may be impaired. Nature has regulated things pretty well. Some women are meant to have children—and they do. And a mere mortal doctor can't always outguess wise old Mother Nature.

Of course, in cases in which ovaries or tubes have been removed or are not in healthy condition, a woman cannot become pregnant. It is physically impossible.

Many a woman with an under-sized uterus has been told that she "couldn't have children," but when a healthy bundle of joy arrives, the doctor's face has turned red.

If the necessary physiological structures are present, and the woman's system is functioning properly, chances of pregnancy are good. And I sincerely wish you the best of good fortune.

## BIBLE BRIEF

If it be so, our God whom we serve is able to deliver us from the burning fiery furnace, and he will deliver us out of thine hand, O king.—Daniel 3:17.

Believers know God will deliver them from fiery furnace experiences.

WOMEN'S EDITOR: FLORA EVANS

KELOWNA DAILY COURIER, THURS., MAR. 21, 1963 PAGE 1

## Dominion Anglican WA Hold Spring Executive Meeting

The Spring Executive meeting of the Dominion Anglican Women's Auxiliary has been taking place in Kelowna for the past three days. This is the first time this Spring Meeting at which the executive decides on the policies and amendments to be presented to the Dominion Annual Meeting held in September, has ever been held in the West, and Kelowna is proud to have been the host city.

Some 47 delegates including the Dominion President, Mrs. J. Robertson of Kitchener, Ontario, Presidents of the dioceses and some Dominion Secretaries arrived by bus from Kamloops on Tuesday morning and were received by Mrs. W. R. Coleman, Mrs. D. S. Catchpole, and by Mrs. O. St. P. Atkins, who was in charge of transportation. The Dominion President and the key executives were billeted at the Inn Turner Motel and the Presidents of the different dioceses and the Dominion Secretaries were billeted in private homes.

### HOSPITALITY TO THE DELEGATES

On Tuesday the Afternoon Branch of the Women's Auxiliary to Saint Michael and All Angels' Church served luncheon at the Parish Hall where Bishop and Mrs. Coleman, and the venerable Archdeacon and Mrs. Catchpole were special guests.

The luncheon was convened by the president of the auxiliary Mrs. D. Davidson, and the hall was charmingly decorated for the Spring Meeting with daffodils, pussy willow, forsythia, daphne and fruit, representing the gold and blue Diocesan colours.

Bishop Coleman welcomed the delegates on behalf of the Diocese of the Kootenays and Archdeacon Catchpole welcomed them on behalf of Kelowna.

Saint Stephen's Women's Auxiliary of Summerland were dinner hostesses in the Parish Hall on Tuesday evening. Guests at the head table were Mrs. J. Robertson, Dominion President; Mrs. G. S. Moore of Trail, Diocesan President; Bishop and Mrs. W. R. Coleman; and Reverend and Mrs. N. Tanner and Mrs. F. Harrison of Summerland, a life member of the diocese.

Saint Mary's Branch of Oyanas Women's Auxiliary served lunch to the visitors in Saint Michael and All Angels' Parish Hall on Wednesday when guests at the head table were the Reverend Mr. Matthews, the Reverend and Mrs. Cyril Clarke, the Reverend A. Jackson of Oyanas and the Reverend and Mrs. T. Summers from Lumby.

The Ada Newton Branch of the Women's Auxiliary of Kelowna, whose president is Mrs.

W. R. Coleman, served dinner at the Bishop's home on Wednesday evening.

The Evening Branch of Saint Michael and All Angels' Women's Auxiliary served luncheon convened by the president, Mrs. A. E. Fulle in the Parish Hall on Thursday.

This afternoon the Diocesan Executive are hosting a farewell tea at Summergrove Farm the home of Mr. and Mrs. J. Bruce Smith in Okanagan Mission, where the guests will be received by Bishop Coleman, Mrs. J. Robertson, the Dominion President, and Mrs. G. S. Moore the Diocesan President, and presiding at the urns will be Mrs. Coleman, Mrs. Catchpole, Mrs. Davidson and Mrs. Ruffie.

### OFFICERS AND MEMBERS OF THE EXECUTIVE

Delegates to the Spring Executive Meeting included: Dominion President, Mrs. J. Robertson, from Kitchener, Ontario; First vice-president, Mrs. A. C. Calder from London, Ontario; Vice-president Eastern Canada, Mrs. R. K. Naylor of Montreal; Vice-president Western Canada, Mrs. F. E. Anfield of Vancouver, B.C.; Secretary, Mrs. D. Conning of Moncton, Quebec; Treasurer, Mrs. E. R. Bagley of Toronto; Chairman Missionary Personnel, Mrs. J. J. Scanlon of Ottawa, Ontario; Chairman of Dorcas Supply Department, Mrs. M. J. Barber of Underhill, Manitoba; Chairman of Candidates Department, Mrs. M. P. Wilkinson of Ingleton, Ontario; Chairman of the Education Department, Mrs. G. P. Parson, of Port Credit, Ontario; Chairman of the Girls' Department, Mrs. Leslie Hunt of Toronto, Ontario; Chairman of the Junior Department, Miss Norma Hall of Arran, Ontario; Chairman Little Helpers' Department, Mrs. J. M. Crawford, of Montreal, Quebec, and Editor of the Living Message, Miss M. A. Daeof, of Winnipeg, Manitoba.

### CONVENERS

Archivist, Mrs. G. Laidler of Hamilton, Ontario; Bursaries Committee, Mrs. E. S. Hoare, of Ottawa; Dominion Life member, Mrs. C. F. Johnson of Vancouver, B.C.; The associate Executive Secretary of Church House Women's Auxiliary of Toronto, and representing the management committee of the Living Message, Mrs. S. R. McCullion.

### STAFF OF CHURCH HOUSE

Executive secretary of the Women's Auxiliary, Miss Mary D. Rendell of Toronto; associate executive secretary of the Women's Auxiliary, Miss Shirley M. Bruton of Toronto; consultant for Girls' Work, Miss V. Florence Lamb of Toronto and consultant for Children's Work, Miss Eleanor Rice of Toronto.

APPLE BLOSSOM QUEEN

Every year the Royalty of the Washington State Apple Blossom Festival visit Northern Washington cities and spend a day and a half in Kel-

owna prior to the festival which is held in Wenatchee in May. Shown above in this year's lovely Apple Blossom Queen, Mary Radewan, who

accompanied by her two princesses Paula Maguire and Janet Evans will visit Kelowna next Monday and Tuesday.

## STARVATION DIET IN HOTEL ROOM

LONG BEACH, Calif. (AP) — A woman with a lot to lose — at 244 pounds — has settled into two weeks of self-imposed solitude and a near-starvation diet.

"I'm tired of being fat," Mrs. Mary Ferguson, 36, of Long Beach, announced Sunday as she took to a hotel room for privacy. She weighs more than twice what the scales said when she married 13 years ago.

Her breakfasts for the next 13 days will consist of two or three cups of black coffee. For lunch, "for a little variety," she'll have one or two cups of tea. The menu at dinner, her main meal, has one or two cups of coffee and a bowl of clear broth. There'll be some daily vitamins to top it off.

## SWINGING PARTNERS

By M.J.I.

The Oyanas Twirlers were hosts last Saturday to a St. Patrick's Square Dance Party in the Winfield Hall. Ray Fredrickson of Summerland called the dance and guest calling on his program were Johnny Bogart of Ashton Creek, Walter Malloch of Lumby, Dave Carmichael of Vernon, Scotty Hiltman of Winfield and George Fyall of Kelowna. Dancers attended to join the fun from various valley clubs. Also last Saturday in Penikese was the St. Patrick's Dance sponsored by the Teen Class. This party was called by Fred Proulx of Oliver and guest callers on his program were Jim and Larry Keehor of Bridesville, Cecil Scott of Oliver, Jim Jenkins of Penikese, and Chuck Ingalls of Peachland. Teen-agers attended from Princeton, Cawston, Bridesville, Peachland and Westbank with many adults enjoying the evening of square dancing.

This Saturday, March 23rd again two party nights in the valley. In Vernon the Kalamka Squares will host their monthly party in the Scout hall. This is the Kal Squares 6th birthday party and lunch will be provided. Ray Fredrickson is the caller. Also on Saturday, the 23rd, the Star 'N' Aders will host their party night in the Centennial Hall in Kelowna. Bill French of Oroville is the emcee and guest callers are invited to bring their records. This party is fun level with everyone welcome. Please bring box lunches.

Not too far from home, and also on the 23rd is the Princeton Jamboree. This dance will be held in the school auditorium and Ed and Irene Stebor of Tonasket are the emcees. The Haylofters special square rib supper is from 6:30 to 8 and dancing from 8:30 to 11:15 follows.

Glancing to Saturday, April 6th — Again two party nights here in the valley. In Kelowna the Wagon Wheelers will host their party in the Centennial Hall. Bill French is the emcee and guest callers are invited to bring their records. Buffet supper will be provided. Also on the 6th the Peach City Promenaders will host their monthly party in the high school cafeteria. Jack Sollee of California is the caller for this one.

A little further from home on the 6th is the Canoe Squares party night to be held in the J. L. Jackson Junior High School in Salmon Arm. Bob Emerson of Omak is the caller and a turkey supper will be provided.

"Till next week — Happy Square Dancing!"

## American Hope Cooke Becomes Majarajkumarani Of Sikkim

GANGTOK, Sikkim (AP) — Blessed by snow lions and billions of other deities, socially prominent American Hope Cooke silently exchanged white silk scarves with the crown prince of Sikkim today and became a majarajkumarani — crown princess — of this small Himalayan state on the doorstep of Communist China.

The crown prince, 39, a widowed father of three, smilingly helped an aide put a 12-foot white silk scarf around the neck of his 22-year-old bride. She smiled faintly as she watched her second cousin, John H. Humphreys of New York, garland her bridegroom, the gold-robed maharajkumar.

The exchange completed the marriage in a mountain top Buddhist chapel blazing with torch color.

A red-robed lama in a flame-hued hat read prayers in Tibetan as the 50-minute ceremony was completed. He invoked the blessing of the guardian deities of Sikkim — billions of them including the snow lions.

SCENE MAGNIFICENT — The wedding scene in tiny Gangtok — about 120 miles from towering Mount Everest — was magnificent as Mrs. Cooke became the bride of crown prince Palden Thondup Namgyal. It was the first time a for-

eigner had married into the 500-year-old Sikkimese Tibetan dynasty and the first time a Buddhist wedding ceremony was ever made legal without a civil contract.

Miss Cooke, a graduate of Sarah Lawrence College in Bronxville, N.Y., and a member of New York and Washington societies, met the prince four years ago in nearby Darjeeling. She is a student of Oriental studies.

## ANN LANDERS

### Unfair To Both Sisters

Dear Ann Landers: We have four children—two boys and two girls. The boys (18 and 17) have never caused us any trouble. They go with the same group of teenagers and get along well together.

The girls 16 and 15. They get along fairly well (though not as well as the boys) until about two years ago. Ginger who is 16 is full of fun and has a great many friends. Debbie does better in school but she's somewhat unsuccessful socially. It is ironic that Debbie is much better looking than her older sister but not nearly so popular with either boys or girls.

Ginger has always received a great many more invitations than Debbie. I've insisted that she arrange to have Debbie invited or she must stay home, also. Lately she has become rebellious over this.

I say sisterly love is more important than any invitation and that Ginger should not go where Debbie is not invited. We want your opinion. — REFERENCE

Dear Reference: This is no way to encourage sisterly love, mother. You are creating resentment between these sisters which may well last forever.

Insist that Debbie make her own friends. Ginger should not be placed in the unattractive position of begging for an invitation for her sister. You are not being fair to either of these girls.

Dear Ann Landers: I see by newspapers that you firmly believe prolonged mourning is unhealthy. You say it serves no useful purpose and long-time mourning is really "self-pity turned inside out."

You usually make pretty good sense. I agree in this case that you are right. Now, I would like to know your views on prolonged mourning? What do you think about couples who go together for years and somehow never seem to get around to marriage?

I know of a couple who have been dating for 15 years. Is this unhealthy? My initials are the same as yours. — A. L.

Dear A. L.: It all depends on the couple. I've said it before and I'll say it again — marriage is not for everyone.

Some couples "go together" like salami and rye bread — but they are unable (for a variety of reasons) to function within the frame work of marriage. For them — marriage is a disaster — and they are better off "going together."

Dear Ann Landers: I married too young like a big fool and had two boys before I was 19. My husband (if you can call him that) started to chase with an older woman. After three years of running around he asked for a divorce. I was sick of his cheating and lying, and was happy to be rid of him.

I had a wonderful opportunity to take a road job but it meant boarding out my boys. Mom and

dad told me they would take the boys but only if they could adopt them legally. I agreed, seeing no other way out.

Two years have passed and I'm through with the road job and am now settled in town. My sons, I'm sorry to say, are growing up like a pair of savages. They talk back to everybody and have no manners whatever. When I correct them my father says, "Shut up. These boys are mine."

What can I do? — HEARTACHE

Dear Heartaches: Very little. When you allowed your parents to adopt the children you staked away your rights as a mother.

Try to get the point across to your father that the boys need discipline and must learn to respect others or they will be a problem to themselves and to everyone else. If you can enlist your clergyman's help, I heartily recommend it.

Confidential to YES OR NO: No. There are worse things in life than loneliness and if you marry this liar you'll find out what they are.

### TYPHUS HITS FRONTIER

LA PAZ (AP) — A typhus-like epidemic on the Bolivian-Brazilian jungle frontier has caused 170 deaths in the Bolivian town of San Joaquin.

### CHINESE NURSE

CAPE TOWN (Reuters) — The South African Nursing council Tuesday refused permission for a Chinese girl to train as a nurse at a hospital recognized as a training school for white nurses. The council ruled she would have to enter a non-white training school.

## Senior City Band Makes Plans For Summer Season

An executive meeting of the Kelowna Senior City Band was held Thursday evening, March 14, at the residence of band president, Carl Dunaway.

The seven member board in reviewing activities of the past year noted that of the orchestra that participated in the recent outstanding success of "The King and I" by the Kelowna Musical Productions, 15 of its 25 piece ensemble consisted of Kelowna senior city bandmen. Of these band members, eight are members, also, of the Valley Symphony Orchestra.

Included in discussions by the band executive was a tentative schedule for a fall season that participated in the recent outstanding success of "The King and I" by the Kelowna Musical Productions, 15 of its 25 piece ensemble consisted of Kelowna senior city bandmen. Of these band members, eight are members, also, of the Valley Symphony Orchestra.

Included in discussions by the band executive was a tentative schedule for a fall season that participated in the recent outstanding success of "The King and I" by the Kelowna Musical Productions, 15 of its 25 piece ensemble consisted of Kelowna senior city bandmen. Of these band members, eight are members, also, of the Valley Symphony Orchestra.

With "The King and I" now a bright spot in Kelowna's history, the band again has its normal complement of nearly 60 members for the necessary rehearsals prior to the Okanagan Music Festival.

## Engagement Of Peachland Couple Is Announced

Mr. and Mrs. Arthur Topham of Peachland announce the engagement of their daughter Marilyn Jean to Robert E. Siegrist son of Mr. and Mrs. William Siegrist of Peachland.

The wedding will take place on Saturday April 13th at 1 p.m. in the Peachland United Church with the Reverend C. Warren officiating.

## Ex-Vernon Baseball Star Off To Yankees' Camp

VERNON (Staff) — Reg Main, former baseball star for the Vernon Kel Juniors, in the Okanagan Mainline Baseball League, leaves Vernon Sunday for the big time. He was signed last summer by the New York Yankees and goes into spring training in Florida next week. Along with fellow-player Derek McGillivray of Kamloops, who was also signed by the Yankees last year. The two Major League potentials go by car to Vancouver then wing over the United States and arrive at Orlando, Florida, Sunday night. From there they report to Lake Wales and the Wiltshire Hotel before a three-week pre-training program starts.

About 150 from all over the United States and Canada will report, and these four teams will be picked — about 30 to a team. Those who do not make a team in the three-week period return home, slightly dejected but much wiser.

### City Clerk Guest Speaker

VERNON (Staff) — City clerk Ian Garvin was guest speaker at the Vernon Jaycees dinner meeting Wednesday night. Mr. Garvin gave the fourth in a series of studies of the provincial affairs, his talk was on municipal government. Stuart Mairhead, president of the chamber of commerce was also a guest speaker and pointed out that he has been present at several Jaycee functions this year including the good citizen concert, tourist hospitality day luncheon and one or two meetings.

Les MacLean, finance chairman of the Vernon Restholm Society gave a talk on the home for elderly citizens. Gary Cooper, secretary, president of the Revelstoke Jaycees and a member of his executive, Lawrence St. Pierre were also guests at the meeting. Jaycees voted in favor of appointing a volunteer to serve on the C of C canal investigation committee headed by Lionel Mercer. Also that the Vernon Jaycees would be organizing a public forum for the candidates in the forthcoming federal election in Enderby. Marathon swim chairman, Bill Lahoway asked Jaycees to again organize the finish line ceremonies on August 18, as well as being chairman of this C of C project. Mr. Lahoway is a member of Vernon Jaycees. Jaycees accepted a report suggested that the interest and action taken by Jaycees in regard to firing the court recorder, may have had some bearing on that position being reinstated.

### Cattlemen's Meeting Set

VERNON (Staff) — The North Okanagan Beef Cattle Growers' Association will hold their annual meeting in the Elk's Hall, Vernon, March 28 at 8 p.m. Guest speaker will be J. E. Millmore, of the research station, Summerland. He will give a progress report on blast research and other projects of interest to cattlemen. In addition, the business session of the meeting will consist of the president's report; reports from delegates to the B.C. Beef Cattle Growers' Association; election of three advisory board members; extraordinary resolutions and general business. Resolutions are welcomed from the floor. There will be refreshments and door prizes.

## Frenchmen Edge Grindrod 3-2 To Move Ahead In NOHL Finals

VERNON (Staff) — Lumby and Gary Anderson. Playing Flying Frenchmen took a narrow 3-2 victory over Grindrod Elks to take the third game of the North Okanagan League hockey finals Wednesday night in a game played in Salmon Arm before more than 250 fans. The win, the second for Lumby, moved them one game up in the best of five finals with Grindrod. The Elks had tied the series Tuesday by virtue of a 4-2 win in a game played in Vernon.

Ron Cooper was the hero of the night for Lumby as he put on a one-man show to score all three markers for the Frenchies. Jim Harrigan, in the net for Grindrod, also played an outstanding game as he pushed aside 31 shots on goal and on several occasions made seemingly impossible saves with every type of acrobatics imaginable. Cooper's first goal came at 3:04 of the opening period as he went in alone to beat Harrigan on a low shot which Harrigan never saw.

Leading 1-0 into the second frame, it was Cooper again at 3:43 when he teamed with Ron Catt to score from a scramble. Elks hit the score sheet less than a minute later on a rebound shot off the stick of Don Baron, who along with Pete Kapak and Ray Anchikowski swarmed around the net before scoring. Cooper's third goal and the last for Lumby was a brilliant effort on the part of both Cooper and Catt.

## AROUND VERNON

### NIGHT SCHOOL

VERNON (Staff) — The success of the Vernon night school program for the 1962-63 season has been outstanding, school superintendent Floyd Irwin told the board of trustees this week. He said it was due to the "energetic leadership" of director Nick Turk.

Trustees James Ingalls and A. C. Wormul supported a motion, carried unanimously, that Mr. Turk be asked to take these duties for the 1963-64 season.

LEASE GIVEN  
VERNON (Staff) — The board of trustees for school district number 22 this week granted permission to Rev. A. W. Dobson, of Trinity United Church, Vernon, the use of Lavington school for a church service to follow Sunday school each Sunday morning. Rev. Dobson in a letter to the board said that 40 children are currently attending the Sunday school led by Isaac Dawe. The church service will be taken by James Ford, assistant to Mr. Dobson.

## Scouts Pay Homage To Blast Victims

By MABEL JOHNSON

An honor party of Boy Scouts paid tribute before the bodies of Donald Hope, aged 14, and Grant Morgan, 12, were lowered into their graves, side by side, in Pleasant Valley Cemetery, Wednesday.

The identical white caskets were each draped with the Union Jack, and each bore an emblem of white carnations — and their Scout hats.

The two boys lost their lives Saturday when a mortar bomb exploded on the Commage. Rev. Arthur W. Dobson of Trinity United Church, and Rev. Denis Mahood of Knox Presbyterian Church, officiated at the rites where about 500 people paid their last tribute to the boys.

Boy Scout officials were pall-bearers, fellow Scouts were an honor guard — with members of the fifth troop, of which the boys were members — given preference.

NO FLOWERS  
Though the families had requested no flowers, asking instead donations be made to the Fifth Boy Scout troop memorial fund, there were about 15 floral emblems in the church.

A blue-gowned choir led the singing of hymns, with Mrs. Elsie Gaunt Stevenson at the organ console.

Rev. Denis Mahood read from the Bible. "On the late Lord Baden Powell's tombstone," said Rev. Dobson, "there is carved a circle on which is a dot. This signifies that the great leader had 'gone home,' where he is now joined by these two boys. They, like their famous leader, tried to love God and their neighbor, and to help others to do likewise."

Next game of the series comes back to Vernon Saturday at the Civic Arena with game time slated for 8 p.m.

## No Aid Yet For Airport

VERNON (Staff) — Chairman Ald. Michael Leminski of the recreation and properties committee of city hall, which includes the airport, and his committee met with two officers Wednesday from the department of transport on airport development here.

Ald. Leminski said DOT officials, W. Wilson and Eric May, informed the committee that financial aid for the airport here could not be made until the strip acquired 4,800 feet of runway. Ald. Leminski said there is enough land at the present airport, which has slightly more than 2,000 feet of runway, for the city to lease and live up to the requirement laid down by DOT. But at the same time said discussions must follow before that or another site could be chosen.

He said other sites were looked at for possible development for an airport here.

The chamber of commerce has gone on record for further development of the present airport at the head of Okanagan Lake after council refused to consider other properties in the area last year or take the matter of an airport to the electorate in the form of a referendum.

BOARD THANKED  
VERNON (Staff) — The North Okanagan Community Concert Association has thanked the board of school trustees for the use of the Vernon High School auditorium for each of the five concerts presented during the 1962-63 season.

## A Short Message To Businessmen

D. G. PRATT, Manager, Inland Natural Gas

... directs a comment or two to proprietors of commercial establishments in Kelowna and District who perhaps have not investigated the economy and efficiency offered by Natural Gas heat and hot water. Inland will provide you with complete facts and figures, fully documented, as to how your present heating and hot water system can be converted to Natural Gas economically, resulting in substantial future savings. In addition, should you have problems peculiar to your type of business, a specialized engineering service is available at no cost to you. Why not get the facts today? Call ...

Rev. Denis Mahood read from the Bible. "On the late Lord Baden Powell's tombstone," said Rev. Dobson, "there is carved a circle on which is a dot. This signifies that the great leader had 'gone home,' where he is now joined by these two boys. They, like their famous leader, tried to love God and their neighbor, and to help others to do likewise."

Next game of the series comes back to Vernon Saturday at the Civic Arena with game time slated for 8 p.m.

ICE "FLOOD" CUTS OFF RESIDENTS

Two men go to the aid of these women trapped by ice and the flooding Cataraugus creek, at Silver Creek, N.Y.

The rescuers helped the women to dry land after their home had been cut off by the floods which pushed huge

chunks of ice aground all around this Lake Erie community. (AP Wirephoto)

## Doctor Of "Drug Baby" Faces One More Ordeal

LIEGE, Belgium (Reuters)—Dr. Jacques Casters, the family doctor acquitted in last year's sensational "thalidomide baby" murder trial, still faces one ordeal.

He has been summoned to appear before a commission of Belgium's "Ordre des Medecins" (Order of Doctors) which could conceivably end his career if it rules he committed an offence against professional ethics. No date has been set for the hearing, however, and he has continued to look after his patients.

The medical tribunal could also suspend him or give him a formal reprimand.

Dr. Casters, 34, was one of four persons acquitted last Nov. 19 of aiding and abetting Mrs. Suzanne Vandepuut, 25, in killing her seven-day-old daughter Corinne, born last year without arms and with deformed feet.

Mrs. Vandepuut was acquitted of a murder charge. Dr. Casters had prescribed thalidomide, a tranquillizer later blamed for many deformed babies, for her during pregnancy and also prescribed the barbiturate which she used to end the infant's life.

The three other family members acquitted of complicity in the death were Mrs. Vandepuut's husband, Jean-Noel, 35, her mother, Mrs. Fernande Cotnel, 50, and her sister, Mrs. Monique de la March, 26.

With tears in her eyes, Mrs. Casters, 25, said in an interview: "The thought of having to appear before the doctors' commission worries my husband. Not all we ask is peace."

DOCTORS NOT EAGER  
She refused to say more but it appears her husband fears his

medical colleagues may show themselves less lenient than the jury in the murder trial. But the fact that no date has yet been set for the hearing makes some observers believe that the doctors are far from eager to take up memories of the case.

For the other defendants, life has largely returned to normal since the day close to 2,000 persons outside the Liege court-house wildly cheered the acquittal.

The next day, Suzanne and her husband departed for Paris and then took a vacation in the south of France with her relatives.

Some criticism was expressed in Belgium when Suzanne's picture appeared in newspapers showing her in a Paris top shop and when a popular Paris weekly newspaper published her story of the thalidomide drama.

The Vatican radio also came in for harsh criticism in the Belgian socialist newspaper Le Peuple for advocating a guilty verdict.

Now the Vandepuuts are back in Liege and Suzanne and Jean-Noel have gone back to their modest jobs in the municipal office.

They have moved into a new apartment but their former neighbors said the move had nothing to do with the trial. "It was just that their old lease ran out," the friends said.

## Johnson Says Cuba Now A Showcase Of Failure

WASHINGTON (AP)—Vice-president Johnson said today Cuba has become a Communist "showcase of failure" and has demonstrated the need for nations of the United States-supported Alliance for Progress aid program for Latin America.

"We shall not be content until the last of Soviet forces are withdrawn from Cuba," said the vice-president, told a graduating class of the Inter-American defense college at Fort McNair here.

Johnson said members of the Organization of American States also "are mutually determined that the Cuban people shall have an opportunity to choose their own government, freely and without oppression."

"Our mutual objective is to end that communist regime in Cuba," he continued. "We cannot be really content until communism is gone from Cuba and gone from this hemisphere."

"Cuba is clearly proving to be for the Communists a showcase of failure—not a show window of success."

In support of this content he said:  
"1. In Cuba, under communism, the gross national product has fallen by 25 per cent."

## Maple Leafs Take Title

Punch Imlach's gamble, expected to finish first. That's what we're paying them for. But he admitted he was concerned before Koen popped the puck by Montreal's goalie Jacques Plante from a scramble in front with Dick Duff and Bob Nolin drawing assists.

Before a hometown crowd of 15,377 the Leafs couldn't beat Montreal Canadiens but they salvaged a 3-3 sawoff and that was good enough.

Each club plays two more games and both Montreal and Chicago Black Hawks could tie Toronto in points. But the marbles go to the team with the most wins—the Leafs.

In the other game Wednesday night the Rangers dumped Boston Bruins 5-1 before 8,155 fans in New York, getting three goals from Vic Hadfield, who scored only twice in 34 previous games.

Koen's second goal of the game—with eight seconds left to play—used it for Toronto.

**SAYS LEAFS UNWORTHY**  
The mild-mannered centre from Noranda, Que., a swift 165-pounder, was candid about it later in the dressing room.

"We didn't deserve it," he said. "We stopped skating and they didn't. In the last five minutes of the third period I thought we'd blown it."

Cochman Imlach was less unassuming. He said of his crew: "As the highest-paid club in the league they should be ex-

### Top Gymnasts Attending Competitions In Kelowna

The Canadian open all-round gymnastic champion will take part in the B.C. Open Gymnastic championships at Kelowna March 30th.

Sergeant Willy Wieller of the Canadian Army, has confirmed his attendance at the gymnastic extravaganza in Kelowna. Sergeant Wieller will represent Canada at the Pan American Games in Brazil next month.

Jack Brown, Kelowna recreation director said today over 150 entries are expected to take part in the championships which will be staged in the Senior High School gymnasium. Already 14 entries have been received by Seattle YMCA which won every division in the B.C. open girls events last year. They will be led by 12 year old Joyce Tanaka who swept the novice events last year and has moved up to junior competition this year.

Delbrook of North Vancouver,

FATHER DAVID BAUER New Formula . . .

### Bauer Skeptical Of '64' Olympics

VANCOUVER (CP) — Rev. David Bauer, who scouted the world hockey championship in Stockholm, says any team he takes to Innsbruck next February will have "only an outside chance of winning."

Father Bauer is coach of Canada's 1964 Olympic hockey team to play next winter in Austria.

He said his skeptical attitude is not an admission of defeat, but rather a facing of reality. Canadian hockey officials, he said, must "find a new formula."

The Roman Catholic priest-sportsman is basing his Olympic entry at University of B.C.

### Strange Scores Recorded In WHL Wednesday Night

All eight teams in the Western Hockey League went into the fray Wednesday night, produced some strange scores, and set the Northern standings into a neat and awfully tight pattern.

Vancouver Canucks, riding high in first place with Seattle Totems, got drubbed 11-4 by Edmonton Flyers; Seattle lost 2-0 to Portland Buckaroos, top team in the south; Spokane Comets knocked over Calgary Stampede 4-1 and Los Angeles Blades edged San Francisco Seals 2-1.

For triumphant Edmonton, in a last-ditch fight with Calgary for a play off spot, the score almost reversed the year's worst statistic when the Flyers lost 12-1 Jan. 26 to Spokane.

Wednesday's results left Seattle and Vancouver in a first place tie with 68 points and Calgary and Edmonton also tied with 46.

**KINASEWICH GETS THREE**  
Ray Kinasewich fired three goals in the Edmonton victory while John Misruk had a single and five assists. Only 1,500 fans were out for the kill.

Bill McNeill had two and the other Edmonton goals went to Doug Messier, Ray Ross, Norm Corcoran, Bo Elik and Jack McInyre. Dave Duke, Bob McCusker, Al Lebrun and Adam Kotler scored for Canucks.

In Portland, the Bucks' goals were pumped in by Jack Blonda and Tom McCarthy. Throughout the game-played before 9,210 — Buckaroos maintained steady pressure on Seattle's forwards.

**Northern Division**  
W L T GF GA Pts  
Seattle 33 31 2 226 227 68  
Vanc'r 32 28 4 218 263 68

### Sonny Liston Out For Six Months

MIAMI BEACH, Fla. (AP) — A knee operation will put heavyweight champion Sonny Liston out of action for at least six months. He may not fight again until next year.

The return bout with Floyd Patterson, which has been hanging by a thread for several weeks, was postponed indefinitely Wednesday night by the Miami Boxing Commission after an official examination that revealed damage to the cartilage in Liston's left knee.

### GOOD PLAYERS RARE

"It was rumored that the Russians missed the championships last year at Colorado Springs to rebuild their team," said Father Bauer in an interview Wednesday. "I have to find boys who can handle these Russians—and these boys are rare."

THE OLD HOME TOWN

By Stanley

HUBERT

By Wingert

YOUR HOROSCOPE

Patience and optimism will be needed now. Some delays or obstacles may be encountered or change of plan indicated, but take these in stride. By Monday, you should have all problems settled to your satisfaction.

FOR THE BIRTHDAY

If tomorrow is your birthday, your horoscope indicates that, since this is the period governed by Mars, in Aries, your Sign, it's time to make the most of good aspects. You are currently in a cycle which should prove most fortuitous in personal, job and financial matters, so keep your eyes open and make use of every possible opportunity—even those which you may have to forego for yourself. The Aries' most notable characteristics are energy and activity, and these traits should put you in good stead as you strive to take advantage of good influences.

There is a tendency here, to be overly aggressive, however. Curb it, for you might tread on sensitive toes in your efforts to get ahead.

Best period for monetary interests: the next four weeks, April, mid-June and mid-November. Look for a good chance to travel in late July or in December.

A child born on this day will be clever, ingenious and shrewd.

**ROTTERS JAILED**  
PAARL (Reuters) — Eighteen South African Negroes were jailed for 12 years each here today for their part in last November's riots when two whites—one a teenage girl—were stabbed to death.

**OYSTERS SUFFER**  
LONDON (AP) — The British oyster has suffered an even worse winter than the frost-bitten natives who eat it. An estimated 80 per cent of all the oysters in the main beds of the Thames Estuary perished in the coldest winter of the century. Those that are left are exhausted and unable to fight predators like limpets.

Opening lead—two of hearts. Dear Mr. Becker: It will no doubt astonish you to learn that I am probably the greatest bridge player in the world! I say this knowing full well that my name is unknown to you and the bridge-playing public. It is true I have never won a world championship, or a national championship, or, for that matter, any kind of championship, but nevertheless, I still think no one can equal my accomplishments at the bridge table.

There is one thing seriously wrong with my game, I will

admit. My trouble is that I play well only while I am asleep accomplishing unparalleled feats of brilliance, but play badly while I am awake. I don't understand why this is so, but I am sure no one can hold a candle to my skill when I am in the arms of Morpheus.

For example, last night I held the East hand and my opponent got to seven clubs. They should have known I would defeat them, but some people just never learn.

My partner had a heart. Now anyone can plainly see there is only one way for a declarer to play such a hand. He must take the ace and place all his hopes on the spade finesse. It would be foolish to finesse the heart and then later finesse the spade also. This would be running two risks instead of one.

So South being a good player, went up with the ace. On the ace I played my king!

You can't really blame South for failing for this play. He naturally thought the king was a singleton. Accordingly, after drawing trumps, he led a heart and finessed the ten, since a spade finesse was now out of the question. He thought he had a sure thing.

But I took the ten with the jack to defeat the slam and I'm sure I would have won the rubber on the next deal except that just then my wife woke me and said it was time to get up and go to work. Cordially yours, John E. Doe.
